BINOJ MADHURANGA

Software Engineer Intern

binojmadhuranga@gmail.com | binoj.me | +94 763546936 | Binoj Madhuranga | binojmadhuranga

PROFILE

Motivated undergraduate with a strong passion for designing and developing real world digital solutions through modern full stack technologies. Proficient in Java, Spring Boot, C#, ASP.NET Core, React, React Native, Node.js, and SQL based database systems. Experienced in building scalable REST APIs, implementing JWT based authentication, integrating AI services through OpenAI APIs, and delivering clean, maintainable, production-oriented software solutions

EDUCATION

BSc. Honours Degree in Software Engineering — 2023 - Present (Expected Year - 2027)
Sabaragamuwa University of Sri Lanka — Current GPA: 3.24 / 4.00

G.C.E Advanced Level - Physical Science Stream — 2019 - 2021
Bandaranayake Central College - Veyangoda — Z-Score - 1.332

EXPERIENCE

Advanced Full-Stack Development Program (Training Program)

- Completed the Advanced Full-Stack Development Diploma at ACPT, gaining practical experience in modern backend and database technologies. Developed strong skills in Java, Spring Boot, Hibernate/JPA, and MySQL along with hands on knowledge of API development, authentication, and deployment. This program enhanced my ability to build scalable, secure, and production-ready full-stack applications.

Industry Oriented Software Project Development

- Contributed to the development of SmartBursery (client based project) and Gemora (research based project), two full stack software solutions developed under academic and industry mentor supervision using industry standard practices.

CERTIFICATIONS

- **n8n: Zero to Hero -** KodeKloud
- **Diploma in ICT** - IBM Campus (Minuwangoda)
- **Blockchain Basics -** NASBA
- **AI Engineer Path -** Scrimba
- **Intro to Machine Learning -** Kaggle
- **Next.js Crash Course -** Udemy
- **Diploma In English** - British Way English Academy
- **Jenkins Project -** KodeKloud
- **Golang -** KodeKloud
- **SOLID Principles in System Design -** LinkedIn Learning

PROJECTS

Gemora - AI Powered Digital Gemstone Trading & Auction Platform (Group Leader)

- Technologies used: Spring Boot, Tensorflow, React, React Native(Expo), MySQL , Zustand
- A secure digital marketplace for gemstone trading featuring real time auctions, identity verification, socket base messaging and AI-powered analysis. Built frontend with React + React Native and backend with Spring Boot and MySQL. Designed complete UI/UX in Figma.
- A research paper based on this project was published and presented at a conference in Colombo.

SmartBursary - Student Bursary Management System (Group Leader)

- Technologies used: Express.js, Next.js, Tailwind CSS, Redux Toolkit, MySQL , Sequelize
- Developed a digital bursary management platform for Sabaragamuwa University of Sri Lanka to streamline student bursary application submission, verification, approval workflows, and payment tracking.
- Deployed on university Node compatible servers with a scalable backend architecture, secure API integration, and maintainable production-ready code for institutional use.

AgriTrust - Blockchain Based Agricultural Verification Platform (Individual)

- Technologies used: ASP.NET Core Web API, SQL Server, Entity Framework Core, Solidity, Next.js, Tailwind CSS, Blockchain Technology
- AgriTrust is a secure agricultural trust platform that enables farmer registration, digital certificate issuance, and transparent verification of farmer authenticity.
- Implemented role based approval workflows, certificate lifecycle management, blockchain hash verification, and scalable REST APIs for secure data integrity.

SmartBiz - Open AI integrated ERP System (Individual)

- Technologies used: Spring Boot, MySQL, Hibernate, React, Tailwind CSS, Open API
- SmartBiz is a system that helps small businesses manage sales, customers, and inventory, and also generates AI powered reports and posts.
- Designed with a modular full stack architecture including secure JWT authentication, Email integration, role based access control, and scalable REST APIs for real business operations.

FinanceMind - AI powered Finance Tracking Application (Individual)

- Technologies used: Express.js, Flask, PostgreSQL, Sequelize, Next.js + Redux**,** AWS EC2, NGINX
- AI-powered personal finance tracking system allows users to efficiently manage income, expenses, categories, and monthly financial summaries through a clean and responsive dashboard.
- Backend services were deployed on Amazon Web Services Amazon EC2 with NGINX configuration and CI/CD pipeline integration, while the frontend application was deployed on Vercel for production access.

Email_Ms (University Project Managment System)

- Technologies used: Node.js, Express.js, MongoDB, React, Tailwind CSS
- Email_Ms is university project managment and this project is requested from our University lecture staff.
- Deployed the backend on AWS EC2 using a Node compatible server environment, with NGINX configured as a reverse proxy for production deployment

TECHNICAL SKILLS

Programming Languages : Java, C#, JavaScript, TypeScript, SQL, Python , C, PHP, Golang

Frameworks & Libraries : SpringBoot, .ASP.NET Core Node.js, Express.js, React.js, React Native (Expo), Next.js, Redux, Zustand

Databases : MySQL, PostgreSQL, MongoDB, Sequelize ORM, Hibernate

Cloud & Deployment : AWS EC2, AWS S3, GitHub Actions , Docker, Kubernetes

Concepts & Practices : REST API , MVC architecture, SOLID Principles, JWT Authentication, OOP, Agile/Scrum, CI/CD

AI & Automation : Generative AI integration, NumPy, Pandas, TensorFlow, Machine Learning, CNN, Image Classification, Data Preprocessing

SOFT SKILLS

- Teamworking
- Problem-Solving
- Leadership
- Self-Learning Ability
- Documentation
- Presentation
- Communication
- Time Management

AWARDS & ACHIEVEMENTS

- Participated in Innovate with Ballerina Coding Challenge conducted by IEEE Student Branch of University of Moratuwa in collaboration with WSO2, demonstrating problem-solving and coding skills using Ballerina (2025).
- Selected as a Semi-Finalist in SLIoT Challenge 2026, a national-level IoT innovation competition organized by IESL Student Branch – University of Moratuwa in collaboration with SLT-MOBITEL.
- Published research paper "DeepMineAI: A Deep Learning-Based Gemstone Classification Model for Digital Gem Trade Platforms" at The Colombo Conference 2026, presenting an AI-driven gemstone classification approach using deep learning.

VOLUNTEERING

- Career Compass - IEEE Student Branch, Sabaragamuwa University of Sri Lanka - Public Speaker
- HOPE - IEEE WIE Student Branch, Sabaragamuwa University of Sri Lanka - Instructor
- COMURS 2025 - Sabaragamuwa University of Sri Lanka - Programme Moderator
- PearlHack 4.0 - IEEE Student Branch, Sabaragamuwa University of Sri Lanka - Finance team
- IEEE Day -IEEE Student Branch, Sabaragamuwa University of Sri Lanka - Programme Moderator
